Scope and Contents

The Education and Research/Public Education Papers of Marjorie Martus were transferred to the Ford Foundation Archives in 1982.

The seven boxes of correspondence and reports which constitute the Education and Research/Public Education Papers of Marjorie Martus, document her activities and a number of those of the Education Program for the years 1962 to 1968; and from 1971 to 1975.

The papers include material related to Ford Foundation educational activities and projects; and correspondence with Foundation colleagues, and individuals in academic, grantee and other organizations.

The papers are broad in scope, but are rather disappointingly superficial, especially in light of Miss Martus' activity and reputation. It is recommended that the researcher consult the files of grants for which Miss Martus served as Responsible Program Officer, a list of which is included in the appendix to this register.

I. Correspondence Files, 1962-1968, 1971-1975 II. Subject Files, 1962-1968

Arrangement within each series corresponds as closely as possible to the original order established by Martus' office.
