Biographical / Historical

A physician, public health officer, and author, Benjamin E. Washburn was born in Rutherford County, North Carolina, in 1885. Dr. Washburn received undergraduate (1906) and graduate (1909) degrees in English and history from the University of North Carolina at Chapel Hill and graduated from the University of Virginia in 1911 with a degree in medicine. It was during his internship in Wilmington, North Carolina, that he met Zillah Howe, a nurse from Michigan, whom he married October 6, 1912.

Following a brief private practice in Rutherford County, North Carolina, Dr. Washburn began his long connection with Rockefeller organizations as an employee of the Rockefeller Sanitary Commission. As field director for Haywood, Stanley, and Caswell counties in North Carolina, he led a hookworm eradication campaign; he later (May-December 1914) became a full-time health officer in Nash County, North Carolina, as part of a program of community sanitary work funded by The Rockefeller Foundation.

In 1915 Dr. Washburn was appointed field director for the International Health Commission's campaign for control of hookworm in British Guiana and Trinidad. Returning to North Carolina in 1916, Washburn, as county health officer in Wilson County, developed a program of health work intended to serve as a model for other counties and as a training center for International Health Board field staff. In

1917, Dr. Washburn was appointed director of the new state Bureau of County Health Work where he was responsible for the creation of cooperative health programs in ten North Carolina counties.

Dr. Washburn left North Carolina again in 1930 to direct the IHB's Hookworm Campaign in Jamaica and remained to inaugurate and oversee the Malaria Campaign, the Tuberculosis Commission, and the Bureau of Health Education. In 1935, he was appointed regional director for the International Health Division in the West Indies and Central America. Washburn retired from The Rockefeller Foundation in 1939.

Upon retirement, Washburn returned to Rutherfordton, North Carolina, where he was active in state and local public health affairs. He also served as health editor for the Raleigh, North Carolina, "Progressive Farmer" from 1940 to 1951 and wrote several books devoted to his health interests.

Dr. Washburn is the author of "Jamaica Health Stories and Plays" (1929); "The Health Game" (1930); "A Country Doctor in the South Mountains" (1955); "As I Recall" (1960); "Rutherford County and Its Hospital" (1960); and "A History of the North Carolina State Board of Health, 1877-1925" (1966).

For a full list of activities, organizations and honors, see "Who's Who in America," v. 27, 1952-1953, p. 2537.

[^ Return to Table of Contents](#)

Scope and Contents

The Benjamin E. Washburn papers contain few items of a personal nature. Consisting of reports, correspondence, scrapbooks, diaries, photographs, books and journals, the papers concern Washburn's employment with the Rockefeller Sanitary Commission (1913-1914) and the International Health Board/Division (1915-1939).

The papers focus on Dr. Washburn's Jamaica years. In addition to various reports and complete scrapbooks, they include correspondence regarding the Hookworm Campaign with the Jamaican Central Board of Health, The Rockefeller Foundation, and the United Fruit Company. Washburn's highly regarded venture in popular health education, the journal "Jamaica Public Health," is also among the Jamaica material.

After the transfer of the IHD Regional Headquarters for the Caribbean region from Kingston, Jamaica, to Havana, Cuba, in 1937, diaries required of Foundation staff are the only documentation of Dr. Washburn's professional activities.

[^ Return to Table of Contents](#)

Arrangement

The Benjamin E. Washburn papers are divided into four series:

Series 1 - Field Office Files

Series 2 - Scrapbooks

Series 3 - Miscellany

Series 1022 - Photographs

Conditions Governing Access

Open for research. Brittle or damaged items are available at the discretion of RAC. Researchers interested in accessing digital media (floppy disks, CDs, DVDs, etc.) or audiovisual material (audio cassettes, VHS, etc.) in this collection must use an access surrogate. The original items may not be accessed because of preservation concerns. To request an access surrogate be made, or if you are unsure if there is an access surrogate, please contact an archivist.

Conditions Governing Use

Reproduction/duplication of archival items is routinely provided in accordance with "fair use." If the RAC does not hold copyright for an archival collection, or items within a collection, it is the user's responsibility to contact the copyright holder, or make a fair effort to do so, prior to publication.

Collection Inventory

Field Office Files, 1916-1937

Physical Description: 1.5 Cubic Feet

Scope and Contents

This series contains the reports, correspondence, publications, memos, and diaries generated as a result of Dr. Washburn's employment with the Rockefeller Sanitary Commission and the International Health Board. The material is arranged geographically and chronologically in four subseries corresponding to Washburn's work in Trinidad, North Carolina, Jamaica, and the Caribbean region.

Arrangement

The material in this series is arranged geographically and chronologically in four subseries:

Subseries 1 - Trinidad Subseries 2 - North Carolina Subseries 3 - Jamaica Subseries 4 - West Indies and Caribbean

Each subseries is further arranged by type of record.

Field Office Files - Trinidad

Arrangement

This subseries is arranged by type of record.

Title/Description	Instances	
Correspondence - Colonial Office, 1914-1915	box 1	folder 1
Reports - Hookworm, 1914-1917	box 1	folder 2
Reports - Hookworm, Alamance County, 1914	box 1	folder 3

Field Office Files - North Carolina

Arrangement

This subseries is arranged by type of record.

Reports - Cooperative County Health Work, 1917-1920	box 1	folder 4
Miscellany, 1917-1919	box 1	folder 5

Field Office Files - Jamaica

Scope and Contents

The Jamaican files are grouped in several categories. The first, General, contains items which concern all aspects of IHB/D work on the island. Also included in this category are several Jamaican publications (1905-1938) on related subjects, such as mosquitos or vomiting sickness. Dealing with a particular tropical disease with which the IHB/D was active or considering involvement, the remaining Jamaican material is grouped under that malady -- Hookworm, Malaria, Tuberculosis, Yaws, and Yellow Fever.

Arrangement

This subseries is arranged by type of record.

Scrapbooks, 1916-1937

Physical Description: 1.5 Cubic Feet

Scope and Contents

The professional scrapbooks, covering the years 1916-1929 and 1932-1937, were kept by Dr. Washburn or a subordinate. They contain clippings from local newspapers in North Carolina and Jamaica and offer an almost daily record of Dr. Washburn and his staff. The personal scrapbooks, 1916?-1925 and 1931-1934, contain magazine and

newspaper clippings on such subjects as North Carolina history, English royalty, and baldness. The scrapbooks are primarily bound volumes; in the early years they are fragments pieced together in approximate chronological order.

Arrangement

The scrapbooks in this series are divided into professional and personal groupings, both of which are chronologically arranged.

Title/Description	Instances	
North Carolina Public Health Work (Fragments), 1916-1919	box 4	folder 39-40
Jamaica Public Health Work (Fragments), 1921-1924	box 4	folder 41

[^ Return to Table of Contents](#)

Miscellany, 1913-1960

Physical Description: 0.5 Cubic Feet

Scope and Contents

This series contains items not directly related to Washburn's career with Rockefeller-associated agencies. Included are a manuscript draft of his book "As I Recall," several articles by Washburn on such subjects as hiccups, book and class notes reflecting his health concerns, and items pertaining to Rutherford Hospital, Rutherfordton, North Carolina.

Arrangement

This series is arranged alphabetically by type of record.
