## Collection Inventory

| Title/Description | Instances |          |
|-------------------|-----------|----------|
| Correspondence    | box 1     | folder 1 |

### Scope and Contents

Early correspondence deals with grants made by RIMR upon the recommendation of Franklin Mall of the Johns Hopkins Anatomical Laboratory for research on "vital staining" and for work done in European laboratories.

### Scope and Contents

In 1930 negotiations began for arrangements to work at RIMR as a visitor bringing with him some members from his own department at the Institute of Experimental Biology at the University of California.
