Biographical / Historical

In March 1960 an Office of the Registrar was established to maintain records of faculty and students. This was a function which to this date had been handled by the Dean of Students and through the Office of the President. Earlier records of the scientific staff had been kept in the Office of the Business Manager. The first appointment to the position of Registrar was Marian Lucius who resigned in June 1972.

The functions of the office developed as it became an adjunct to the Office of the President. Reports to the New York State Education Department were made from this office. Various statistical data on institutional facilities, such as the library; the number of degrees granted; subjects and rank of instructional staff were filed through this office to be reported to the State Department of Education.

When a program of state-aid to non-public institutions of higher education was established required reports were made each year.

After the resignation of Marian Lucius, Phyllis Viets was appointed and served to June 1974.

Antonia Siddiqi, from the Office of the President, took charge of the functions of the Office of Faculty and Student records in addition to her work on the Grant Proposals and Grant Programs of the various laboratories. In 1979 Antonia Siddiqi became Secretary to the Board of Trustees as well as Director of the Office of Sponsored Programs with Eleanor Gibson handling much of the routine of Faculty and Student records.

Scope and Contents

The majority of the records originated in a notebook entitled "Appointments now held by present and past members of the Scientific Staff of the Rockefeller Institute for Medical Research since the opening of the laboratories in 1904". The original notebook was discarded due to poor condition. The entries include the following information: Name; Highest degrees earned; Titles and dates of Institute appointments; Appointment succeeding last Institute appointment; and Present or last known appointment or position.
