Biographical/Historical Note

The John A. Hartford Foundation (JAHF) was established in 1929 by brothers John and George Hartford, sons of the founder of the Great Atlantic & Pacific Tea Company (A&P). The foundation is a private, nonpartisan philanthropy dedicated to improving the care of older adults. For its first several decades, the foundation broadly supported clinical medical research. By 1982, it began to focus solely on geriatric healthcare. In 2015, JAHF paid out \$20.2 million on a total of 80 active grants and committed \$25.3 million to 24 new grants projects, all focused on the care of older adults.

Scope and Contents note

This series contains grant files from 1954 to 1999. During the late 1970s to mid-1980s, the John A. Hartford Foundation underwent a self-described transition period, during which it examined and redefined its grant-making programs. As a result, in a specialized program from 1980 to 1983, JAHF funded a limited number of grants focused on energy conservation for institutions. These grant files are located in Series 3, Boxes 313 to 318.

Then in 1985, JAHF distributed a nationwide request for proposals for its newly established focus on geriatric healthcare, announcing that 10 grants for a maximum of \$500,000 each would be awarded. The response to the RFP exceed the foundation's expectations, and thus JAHF had to decline a large majority of the proposals. Files on these declinations are in Series 3, Boxes 293 to 299, Boxes 324 to 336, and Boxes 348 to 349.

Lastly, the series also contains files on the establishment and administration of the John A. and George L. Hartford fellowship program from 1979 to 1986.
