## Biographical/Historical note

---

John Auer, pharmacologist at the Rockefeller Institute for Medical Research from 1907 to 1921. Worked in the laboratory of his father-in-law, S.J. Meltzer.

Dr. Auer's association with The Rockefeller Institute for Medical Research began with grant support for a three year period at \$500 a year on researches with Dr. Prudden. When he joined the Institute he worked in the laboratory of S.J. Meltzer who was his father-in-law. His investigations were on: Digestion, respiration and heart. They also, studied the anaphylactic caused functional disturbances; physiological action of various drugs and many studies on war gas, tetanus, reflexes and connective tissue.
