Scope and Contents

Action Control Slips were used by the Ford Foundation to route incoming correspondence and project proposals. The Action Control Slips can be used in conjunction with the Ford Foundation's Central Index cards (FA736) to identify where correspondence was filed within the Ford Foundation's central records (Grant files, Project files, Log files, and General Correspondence files).

For instance, a 1960 letter from John Apple to the Ford Foundation may be indexed as "GEN 60, APPLE....." by the Central Index cards. For further information on the routing, filing, and action taken in response to this letter, the Action Control Slips should be consulted.
