## Programs, 1952-1971

### Arrangement

The files have been arranged alphabetically by program area and then by chronological order.

### Scope and Contents

Correspondence, memoranda, evaluations and reports from specific program areas have been arranged by program area: Administration (ADMIN), Education (ED), Economic Development Administration (EDA), Fund for Adult Education (FAE), Humanities and the Arts (HA), International Affairs (IA), International Training and Research (ITR), Overseas Development (OD), Public Affairs (PA), Policy and Planning (P&P), Population (POP), Science and Engineering (SE), and Special Projects (SPE). Staff memoranda, reports, and correspondence that concern more than one program area or cannot be clearly identified as having originated from a specific program have been filed before the clearly identified program materials.

The largest sets of files are for Education and Policy and Planning, indicative of Mr. Lowry's several years of oversight. Of particular note are the extensive Policy and Planning files concerning the issue of "Negro education" and the Foundation's Urban Extension Programs at various universities. The Public Affairs files reveal the Foundation's support for the investigation of the 1965 Watts riots in Los Angeles. The Science and Engineering folder on Conservation (1962-1965) represents the Foundation's work in conservation and the environment, which would become a new program area in 1966, and includes a federal task force report entitled "The Preservation of Natural Beauty" (1964). One member of that task force was William H. Whyte.
