## Biographical/Historical note

---

The Rockefeller Foundation was established by act of the New York State Legislature approved by the Governor on May 14, 1913, "to promote the well-being of mankind throughout the world." Between 1913 and 1928 the China Medical Board, the International Health Board, and the Division of Medical Education functioned as divisions of the Foundation, concentrating on the administration of programs in public health and medical education. A Division of Studies was created in 1923 to handle projects outside the medical field. These early years were experimental as the new foundation studied the methods of philanthropy and explored its relationships with other Rockefeller boards.

Although the Rockefeller Foundation is the largest and best known philanthropy founded by the Rockefeller family, it was neither the first nor the last to be established. The Rockefeller Institute for Medical Research (1901), the General Education Board (1902), the Rockefeller Sanitary Commission for the Eradication of Hookworm Disease (1909), and the Bureau of Social Hygiene (1911) all existed earlier. When the Foundation was created, the Sanitary Commission was disbanded. After the

establishment of the Foundation, the Laura Spelman Rockefeller Memorial (1918) and the International Education Board (1923) were created.

The Rockefeller boards and their programs were reconsidered and reorganized in 1927-1928 in order to avoid overlapping programs. The International Health Board of the Foundation was disbanded and an International Health Division was organized. The China Medical Board, Inc., was established as a separately incorporated institution, and the China Medical Board of the Foundation ceased to exist. The Division of Studies was dropped and the Division of Medical Education was phased out. The Laura Spelman Rockefeller Memorial was combined with the Foundation and the Spelman Fund of New York was chartered to continue activities of the LSRM that were not absorbed by the Foundation. The International Education Board was disbanded.

As a result of this reorganization, the Foundation adopted a program which included public health work (administered by the IHD), the advancement of knowledge in the medical and natural sciences (in part taken over from the IEB), the social sciences (formerly the field of the LSRM), and the humanities and arts (shared with the GEB). The Rockefeller Institute and the Bureau of Social Hygiene were not affected by the reorganization. The program adopted by the Foundation at this time remained basically the same for the next twenty years.

As its files accumulated, the Foundation maintained a card index recording the names of institutional and individual grantees and correspondents. A microfilm copy of this index is available at the Archive Center.

---

## Scope and Contents

---

Types of records include: project files.

[^ Return to Table of Contents](#)

---

## Arrangement note

---

The project files are arranged in series according to country. Each state within the United States and every country or geographical area was assigned a three-digit number by RF staff. In addition, letters signifying program areas are used: for example, "A" indicates a grant in the Medical Sciences, and "C" Nursing. Material is organized within these letter/program subdivisions alphabetically by grant title. A grant title usually consists of a heading that includes the name of the institution or individual that received the grant. Thus each grant, or project, is filed individually in one or more folders.

## Administrative Information

---

### Publication Statement

Rockefeller Archive Center

15 Dayton Avenue

Sleepy Hollow 10591

[archive@rockarch.org](mailto:archive@rockarch.org)

URL: <http://www.rockarch.org>

### Processing Information note

Migrated from Re:discovery to the Archivists' Toolkit by Becky Robbins in May 2010 except for Sub RG 1.3, Series 103, which was processed by Monica Blank in January, 2011.

### Conditions Governing Access note

Open for research with select materials restricted as noted. Brittle or damaged items are available at the discretion of RAC. Confidential material in this record group has been segregated and is inaccessible. Each pertinent file is open to research, and physical removal of the segregated material within each file is not necessary.

Researchers interested in accessing digital media (floppy disks, CDs, DVDs, etc.) or audiovisual material (audio cassettes, VHS, etc.) in this collection must use an access surrogate. The original items may not be accessed because of preservation concerns. To request an access surrogate be made, or if you are unsure if there is an access surrogate, please contact an archivist.

## United States - Medical Sciences, 1933-1980

Physical Description: 20 Cubic Feet

Physical Description: 50 \_\_Boxes \_\_20 cubic feet

### Scope and Contents note

Most of the records in this subseries date from the 1950's and 1960's. Among the institutions which received a number of grants from the Foundation were Columbia, Harvard, Johns Hopkins University, Tulane, University of California and Yale. Fields which the Foundation supported reasonably heavily included psychiatry and neurology and genetics and population control. In addition, emphasis was placed on problems in American and international medical education and curriculum development. Some grants were also given for programs relating to community medicine.

## United States - Nursing, 1947-1970

Physical Description: 2.4 Cubic Feet

Physical Description: 6 \_\_Boxes \_\_2.4 cubic feet

### Scope and Contents note

The Rockefeller Foundation support of nursing was largely directed into three areas of concern. The first was the retraining and placement of European refugees. A second area was the study of an expanded role for nurses in health care. The third area of support was to provide travel and exchange opportunities with nursing schools in Africa and South America.
