Biographical / Historical

Hugh Hollingsworth Smith was born in Easley, South Carolina, on December 12, 1902. He received an A.B. degree from Davidson College in 1923, an M.D. from Johns Hopkins University in 1927, and an M.P.H. from Johns Hopkins School of Hygiene and Public Health in 1935.

From 1920-1930 Dr. Smith was an Instructor in Medicine at the University of Rochester. He became a special member of the International Health Division of The Rockefeller Foundation in 1930 and from 1931-1934, Dr. Smith conducted tuberculosis studies in Kingston, Jamaica. He worked in the yellow fever labs in Brazil during 1937-1938 and in Colombia in 1938-1941. In 1941 he was appointed a member of the Rockefeller Health Commission and was attached to the London School of Hygiene and Tropical Medicine. During his time in London he was a member of the Tropical Advisory Committee on Medical Service and Supplies of the Allied Postwar Requirements Bureau, served as liaison for the British Colonial Office in connection with the development of public health programs in the British West Indies and Africa and was involved in nutritional studies for the war effort.

In 1944 Dr. Smith returned to the United States as Assistant Director of the International Health Division and Regional Director for the United States. In 1951 he became Associate Director of the Division of Medical and Public Health and served in that capacity until he retired in 1954.

After his retirement from the Foundation, Dr. Smith moved to Arizona, where he was a professor of microbiology at the University of Arizona. In 1959 he set up a lab at the University for the study of

arthropod-borne virus, and in 1961 he was awarded a grant by the National Institute of Health which ran through 1966 for research in arthropod-borne encephalitis in Southern Arizona.

Dr. Smith contributed articles to a variety of medical journals including Arizona Medicine and was a co-author of "Yellow Fever," ed. G. K. Strode, 1951. In 1978 he published his memoirs, "Life's a Pleasant Institution: The Peregrinations of a Rockefeller Doctor." He died in December 1995.

Conditions Governing Use

Reproduction/duplication of archival items is routinely provided in accordance with "fair use." If the RAC does not hold copyright for an archival collection, or items within a collection, it is the user's responsibility to contact the copyright holder, or make a fair effort to do so, prior to publication.

Conditions Governing Access

Open for research. Brittle or damaged items are available at the discretion of RAC. Researchers interested in accessing digital media (floppy disks, CDs, DVDs, etc.) or audiovisual material (audio cassettes, VHS, etc.) in this collection must use an access surrogate. The original items may not be accessed because of preservation concerns. To request an access surrogate be made, or if you are unsure if there is an access surrogate, please contact an archivist.

Immediate Source of Acquisition

The papers of Hugh H. Smith were first deposited with The Rockefeller Foundation Archives in June 1968, by Hugh H. Smith. Later additions were received by The Rockefeller University as a gift from Dr. Smith in 1987 and 1988.

Collection Inventory

1931-1967

Scope and Contents

Within Series 1, there are two groupings of material: the Rockefeller Foundation group and the virus group. The Rockefeller Foundation group consists of material which pertains to Dr. Smith's formal association with the Foundation and his correspondence with members of the Foundation after he retired. Correspondence forms the bulk of the group but there are also reports and diaries included.

The Series 1 section on viruses contains material from the Rockefeller virus labs as well as Dr. Smith's own activities in arbovirus research in Arizona. It consists mainly of correspondence. Professional interests note a variety of activities in which Dr. Smith was involved either in his association with the University of Arizona or through his membership in medical and public health organizations.

Arrangement

Series 1 is generally chronological in arrangement.

1927-1988

Scope and Contents

The bulk of the material in Series 2 is correspondence, which has a chronological arrangement. The correspondence falls into two broad categories. The first is letters to Dr. Smith from friends and colleagues of The Rockefeller Foundation, the International Health Division, and the scientific community. These are mostly personal but do cover some professional matters. The other category of correspondence is letters between Dr. Smith and his wife, Mary.

Series 2 also contains two folders of reprints and pamphlets on Dr. Smith's medical and scientific research, two folders of miscellanea from his personal life, and other material documenting his personal and professional interests and activities.

Arrangement

Series 2 is arranged alphabetically by type of material.
