## Biographical/Historical note

### Rockefeller Foundation

The Rockefeller Foundation was established by act of the New York State Legislature approved by the Governor on May 14, 1913, "to promote the well-being of mankind throughout the world." Between 1913 and 1928 the China Medical Board, the International Health Board, and the Division of Medical Education functioned as divisions of the Foundation, concentrating on the administration of programs in public health and medical education. A Division of Studies was created in 1923 to handle projects outside the medical field. These early years were experimental as the new foundation studied the methods of philanthropy and explored its relationships with other Rockefeller boards. Although the Rockefeller Foundation is the largest and best known philanthropy founded by the Rockefeller family, it was neither the first nor the last to be established. The Rockefeller Institute for Medical Research (1901), the General Education Board (1902), the Rockefeller Sanitary Commission for the Eradication of Hookworm Disease (1909), and the Bureau of Social Hygiene (1911) all existed earlier. When the Foundation was created,

the Sanitary Commission was disbanded. After the establishment of the Foundation, the Laura Spelman Rockefeller Memorial (1918) and the International Education Board (1923) were created.

The Rockefeller boards and their programs were reconsidered and reorganized in 1927-1928 in order to avoid overlapping programs. The International Health Board of the Foundation was disbanded and an International Health Division was organized. The China Medical Board, Inc., was established as a separately incorporated institution, and the China Medical Board of the Foundation ceased to exist. The Division of Studies was dropped and the Division of Medical Education was phased out. The Laura Spelman Rockefeller Memorial was combined with the Foundation and the Spelman Fund of New York was chartered to continue activities of the LSRM that were not absorbed by the Foundation. The International Education Board was disbanded.

As a result of this reorganization, the Foundation adopted a program which included public health work (administered by the IHD), the advancement of knowledge in the medical and natural sciences (in part taken over from the IEB), the social sciences (formerly the field of the LSRM), and the humanities and arts (shared with the GEB). The Rockefeller Institute and the Bureau of Social Hygiene were not affected by the reorganization. The program adopted by the Foundation at this time remained basically the same for the next twenty years.

---

## Scope and Contents

---

Types of records include: projects files and related material.

[^ Return to Table of Contents](#)

---

## Arrangement note

---

Records are arranged as received. Within folders, materials are primarily arranged in reverse chronological order.

RG 1.16 is arranged by the Rockefeller Foundation traditional series (country code) and subseries (program letter) structure.

Subsequent subgroups are arranged by program, with RG 1.17 being the most prominent transition period where some materials are arranged by the outgoing traditional series/subseries, and others are arranged by program.

### Publication Statement

Rockefeller Archive Center

15 Dayton Avenue

Sleepy Hollow 10591

[archive@rockarch.org](mailto:archive@rockarch.org)

URL: <http://www.rockarch.org>

### Processing Information note

Records have received basic level 1 processing to establish initial intellectual and physical control of the holdings. Materials remain in original record cartons and folders.

This guide provides file level description. Each file may represent multiple folders.

### Immediate Source of Acquisition

Project files transferred to the RAC by Rockefeller Foundation, 1990-1993.

### Conditions Governing Access note

Records are open for scholarly research, with prior archival review. Retrieval time may exceed 24 hours.

RAC is unable to provide access to obsolete media and original digital media. In addition separated media may not yet have undergone stabilization procedures. When feasible, a digital surrogate may be created via special order. All applicable charges will apply. See RAC Head of Archival Services or RAC Head of Digital Programs for details.

### Conditions Governing Use

Rockefeller Foundation retains title, copyright and literary and intellectual property rights to the records, in so far as it holds them.

RAC has authority to grant permission to publish for scholarly purposes.

## Processing Information

Select digital media was removed from RF Grants that needs to be repatriated during processing.

## Collection Inventory

---

### Rockefeller Foundation records, projects (A90), (1980-1988)

Physical Description: 32.56 Cubic Feet

Processing Information:

#### Processing Information

Standard processing was conducted by Gail Antos, Spring 2018. All records have been placed in acid free lignin free folders and rehoused in archival document storage boxes. Original order and original folder titles have been maintained.

This guide provides file level description. Each file may represent multiple folders.

## Arrangement

Arranged by the Rockefeller Foundation series (country code or series number) and subseries (program letter) structure.

Records are arranged as received. Within folders, materials are primarily arranged in reverse chronological order.

### Conditions Governing Access:

### Conditions Governing Access

Open for research with select materials restricted as noted. Brittle or damaged items are available at the discretion of RAC. Researchers interested in accessing digital media (floppy disks, CDs, DVDs, etc.) or audiovisual material (audio cassettes, VHS, etc.) in this collection must use an access surrogate. The original items may not be accessed because of preservation concerns. To request an access surrogate be made, or if you are unsure if there is an access surrogate, please contact an archivist.

## Rockefeller Foundation records, projects (A91), (1979-1989)

Physical Description: 96.19 Cubic Feet

Processing Information:

### Processing Information

Standard processing was conducted by Gail Antos, Fall/Winter 2018. All records have been placed in acid free lignin free folders and rehoused in archival document storage boxes. Original order and original folder titles have been maintained.

This guide provides file level description. Each file may represent multiple folders.

### Arrangement

Record Group 1.17 represents the period during which the Rockefeller Foundation transitioned from its traditional series (country code) and subseries (program letter) structure to a structure arranged by program only. The arrangement of the material in RG 1.17 reflects this transition.

Records are arranged as received. Within folders, materials are primarily arranged in reverse chronological order.

Conditions Governing Access:

### Conditions Governing Access

Open for research with select materials restricted as noted. Brittle or damaged items are available at the discretion of RAC. Researchers interested in accessing digital media (floppy disks, CDs, DVDs, etc.) or audiovisual material (audio cassettes, VHS, etc.) in this collection must use an access surrogate. The original items may not be accessed because of preservation concerns. To request an access surrogate be made, or if you are unsure if there is an access surrogate, please contact an archivist.

## Rockefeller Foundation records, projects (A92), 1973-1993

Physical Description: 38.4 Cubic Feet

Processing Information:

## Processing Information

Records have received basic level 1 processing to establish initial intellectual and physical control of the holdings. Materials remain in original record cartons and folders.

This guide provides file level description. Each file may represent multiple folders.

File title provide an alphanumeric representing the Program code letters and grant number, followed by file description.

## Arrangement

Arranged by program.

Records are arranged as received. Within folders, materials are primarily arranged in reverse chronological order.

## Rockefeller Foundation records, projects (A93), 1974-1993

Physical Description: 138 Cubic Feet

Processing Information:

### Processing Information

Records have received basic level 1 processing to establish initial intellectual and physical control of the holdings. Materials remain in original record cartons and folders.

This guide provides file level description. Each file may represent multiple folders.

File title provide an alphanumeric representing the Program code letters and grant number, followed by file description.

**Arrangement**

Arranged by program.

Records are arranged as received. Within folders, materials are primarily arranged in reverse chronological order.

**Title/Description****Instances****Arts and Humanities (AH)****Title/Description****Instances**
