Summary Information

Repository:	Rockefeller Archive Center
Creator:	Ford Foundation
Title:	Ford Foundation records, Higher Education and Research Division, Program Staff Files
ID:	FA546
Date [inclusive]:	1954-1975
Physical Description:	7.17 Cubic Feet
General Physical Description note:	17 Hollinger document boxes, 1 oversize box (18 boxes total)
Language of the Material:	English
Abstract:	The collection of Program Staff Files of the Higher Education and Research Division combines the files of several staff members from the Higher Education and Research Division, the International Affairs Division, and the Office of the Secretary. It spans from 1954 to 1970. Files within this collection contain background on the Broadcasters Nonprofit Satellite Service, the PAYE loan project, the Science and Engineering program, international educational grant-making files and educational issues such as desegregation, school drop-outs, and support for disadvantaged minorities. There are also research files from Corinne Kirchner in the Office of the Secretary. The provenance of this collection is unclear. It appears to have been created by combining the files of staff members within the Higher Education and Research Division with some education-related grant-making records from the International Division and the Office of the Secretary.

Organizational History

The fostering of education has been one of the Foundation's longest and most consistent goals. Beginning in 1952 with the Fund for Adult Education and the Fund for the Advancement of Education, and continuing through the present day with the Education, Creativity and Free Expression Program, the Ford Foundation has maintained an ongoing program of educational grant-making.

The Education and the Science and Engineering Divisions were created during the 1957 fiscal year. In 1966, Education became the Education and Research Division, and Higher Education and Research was created as a program area under the umbrella of Education and Research. That same year, the decision was made to phase out the Science and Engineering program and no further Science and Engineering grants were to be made after the December 1966 meeting of the Board of Trustees. As part of a reorganization in 1979, Education and Research became a program area under the Education and Public Policy Division. During subsequent reorganization in 1981 Education and Culture became a program of the United States and International Affairs Program (USIAP) Division.

Biographical Notes

Born in 1905, Carl Williams Borgmann graduated from the University of Colorado with a B.S. in 1927 and was awarded an M.S. in 1931. He worked in the private sector until 1938 when he returned to the University to head the University's Department of Chemical Engineering. He later held various war-related engineering positions before accepting a position as Dean of Faculties at the University of Nebraska in 1947. He left in 1952 to become president of the University of Vermont. Later, in 1958, he was appointed the Ford Foundation's Program Director of Science and Engineering. During the span of the Ford Foundation Program in Science and Engineering (1958-1966), Dr. Borgmann directed activities related to engineering education. His work largely concerned developing methods to improve educational and experimental backgrounds of university engineering faculty and the expansion and enhancement of programs for advanced graduate education. Dr. Borgmann served as Director of the Science and Engineering program until 1965, after which he held the position of Advisor on Science and Technology until 1969. He died in 1998.

Abel C. Amaya was a Program Officer in the Higher Education and Research program until 1974. An Associate Professor with the History Department at Colorado State University and the Director of the Chicano Studies Program, he took a five year leave of absence in order to serve as a Program Officer at the Ford Foundation. Dr. Amaya later served as director of El Centro Chicano at the University of Southern California from 1979 to 1999.

Peter E. de Janosi was born on June 26, 1928 in Pecs, Hungary and died on February 16, 2011. A graduate of Wesleyan University with a B.A. in 1950, he received an M.A. in 1951 and a Ph.D. in

Economics from the University of Michigan in 1956. After holding the position of Senior Economist at the Standard Oil Company of New Jersey from 1956 to 1962, he was hired as a Program Officer by the Ford Foundation. He served as a Program Associate in the Economic Development and Administration until 1965, when he was promoted to Officer in Charge of Higher Education and Research, a position he held until 1976. He subsequently worked as a Program Officer in Resources and the Environment until 1980, when he left the Foundation to become Vice-President of the Russell Sage Foundation (1980-1990). He later was appointed Director of the International Institute for Applied Systems Analysis in Laxenburg, Austria (1990-1996).

Corinne Kirchner (b.1935) served in the Office of the Secretary in several capacities between 1956 and 1969, including Supervisor of Grant Analysis. In this capacity she helped prepare reports in support of Foundation research, including reports on faculty salaries, fellowships and scholarships.

Edward J. Meade Jr. was born on September 7, 1930. He attended Montclair State College and received a B.A. in Education, Business and Geography in 1954. He was subsequently awarded an M.A. in Educational Administration in 1956, and later earned an Ed.D in Education from Harvard University in 1960. Dr. Meade joined the Foundation in January 1961 as a Program Specialist in the Education Division. He was promoted to Program Assistant the next year, and in October 1963, became a Program Associate. Dr. Meade was appointed Officer in Charge of Public Education in the Division of Education and Research in January 1967. He held that position for next decade. In October 1977 his duties changed and he reverted to the title of Program Officer supervising the Foundation's Urban Poverty program, a position he continued to hold after the division changed its name to Education and Public Policy in 1979. He retired from the Foundation on September 30, 1989. He died on May 20, 1994 at the age of 63.

Dorothy V. White worked in the Office of the Vice President of International Affairs as secretary to James Himes, the head of the Latin America and Caribbean Program. In that role she assisted with the preparation of grant recommendations and maintained correspondence files regarding the Foundation's educational grant-making.

[^ Return to Table of Contents](#)

Scope and Content Note

The Program Staff Files of the Higher Education and Research Division, spanning from 1954 to 1970, are an artificially created collection of documents assembled from the files of various staff members in the Higher Education and Research Division, International Affairs Division, and the Office of the Secretary.

An extensive set of files pertains to the Broadcasters Nonprofit Satellite Service (BNS). The Foundation developed a proposal in 1966 to establish BNS, a new nonprofit broadcasting association that would operate in the public interest in order to expand noncommercial educational television. The proposed service included creation of six commercial television channels and five noncommercial channels. AT&T and other broadcast networks opposed the proposal because it granted BNS a monopoly on satellite television broadcasting. Available in the files are the Federal Communication Commission filings

by Ford, COMSAT, all three television networks, AT&T, and other involved parties such as Hughes Aircraft. The reports detail the proposed cost and function of the proposed satellite service, including technical information about satellite orbits and broadcast specifications. There are also meeting minutes and agenda concerning the Foundation proposal.

According to a March 1972 report to the trustees, the Paye-As-You-Earn (PAYE) project began in December 1970 as a Foundation Administered Project to study the financial, administrative, legal and public policy aspects of the income contingent loan. Income contingent loans obligate the borrower to pay a percentage of future annual income instead of a fixed payment schedule. The Foundation's interest in PAYE was inspired by Yale University's creation of a test program earlier in 1970. However, after a two year study and finding that the goal of more manageable student loans could better be achieved through a Federal government supported "graduated payment-income contingent" loan program, Foundation staff vetoed Foundation support for PAYE.

The PAYE files contain correspondence with a number of prominent universities that were considering or experimenting with PAYE loans. They also hold Board of Trustees meeting memoranda, notes, and correspondence regarding the Foundation's study. Issues considered in the study include alternatives such as payment over time, the specific application of PAYE loans to graduate schools of medicine and business, and the possible legal complications that could arise. The opinions of students were also sought as part of the review. Other memoranda describe supportive legislation proposed by several states, including New York, Indiana and Ohio. The files also contain a detailed Foundation study on variable-term loans.

The International files were created by Dorothy V. White, secretary to James R. Himes, the head of the Latin America and the Caribbean Program. The files reflect the overlap between the Education and International programs, as they refer to international grant-making by the Foundation for educational purposes. Topics include grant appropriations, grant recommendations, and discretionary project awards. Also covered in the files is the Foundation policy behind grant-making, including considerations about whether and how the Foundation should support business schools in India, and a guide for overseas development actions. In addition, there is information about internal office filing procedures and several reports on Foundation international grant-making.

The goal of the Foundation's Science and Engineering program, conducted under the direction of Dr. Carl Borgmann, was to increase the number of engineers and scientists in America in response to the Cold War threat posed by the Soviet Union. The program supported innovation in engineering curricula, including expanding the use of residency programs. The files in this collection provide background on the Foundation's science and engineering grant-making, from the development of the program in the mid-1950s to the decision to phase out the program and turn operation of the residency program over to the American Society for Engineering Education (ASEE) in 1966. Several files in concern black educational institutions ("Negro Schools") and efforts to increase the number of African-American Engineers, and they detail the Foundation's grant-making at Fisk University. There is also a proposal for the establishment of the Southern Preparatory Center for Science and Engineering. The work with Negro Schools was a continuation of the Foundation's efforts to expand opportunities for American minority groups. Another file documents the Foundation's consideration and eventual rejection of astronomy as a field for philanthropic support.

Abel Amaya, Peter de Janosi, and Edward Meade Jr. were staff members within the Education Division. Dr. Amaya's files document his focus on Chicano education with universities. Dr. de Janosi's files cover

a broader variety of topics as a result of his work as Officer in Charge of Higher Education. They include records of site visits, visits to European nations including Greece, Germany, Spain and Sweden, and documents related to the Conference on Foundation Programs in Europe and memoranda on. Dr. Meade's files focus on the educational issues of the 1960s including desegregation and support for disadvantaged minorities, studies on school drop-outs, and support for gifted youth and leadership programs.

Administrative Information

Publication Statement

Rockefeller Archive Center

15 Dayton Avenue

Sleepy Hollow 10591

archive@rockarch.org

URL: <http://www.rockarch.org>

Immediate Source of Acquisition note

Ford Foundation archive was deposited at RAC in 2011. Ford Foundation records, correspondence, reports, program files and officers papers were transferred to, and accessioned by, RAC beginning in 2011. Accessions continue as necessary.

Conditions Governing Use note

Completion of a use agreement is required prior to providing scholarly access. See RAC Head of Reference (or applicable designee) for details. Ford Foundation holds title, copyright and literary rights in the collection, in so far as it holds them. The Rockefeller Archive Center has authority to grant permission to cite and publish material from the collection for scholarly purposes. Permission to publish extensive excerpts, or material in its entirety, will be referred to the Ford Foundation.

Processing Information Note

The original volume of 22 cubic feet accessioned by the Ford Foundation Archives in 2011 was reduced during processing to 6.8 cubic feet. Duplicates, reference files, grant proposals, and files that addressed purely financial matters were not retained. Four boxes of university self-study reports circa 1968 and three boxes of background reference files associated with grants to Stanford and the University of California also were not retained.

One oversize box contains "artwork" in the form of charts and elevations associated with the Broadcasters Nonprofit Satellite System proposal.

The provenance of this collection is unclear. It appears to have been created by combining the files of staff members within the Higher Education and Research Division with some education-related grant-making records from the International Division and the Office of the Secretary. The files are predominantly education-related and span from 1954 to 1975. The Science and Engineering records apparently originated from Carl Bormann; the International Program records were created by Dorothy V. White, a secretary in International Affairs; and Corinne Kirchner's records originated in the Office of the Secretary. The records had been in offsite storage.

Conditions Governing Access

Records more than 10 years old are open for research with select materials restricted as noted. Brittle or damaged items are available at the discretion of RAC.

[^ Return to Table of Contents](#)

Related Materials

Separated Materials Note

Appendix A: Reports – Unpublished reports written by Ford Foundation staff and consultants were removed from their original folders, scanned and transferred to the Archives' collection of staff and consultant reports. See Appendix A for a list of these reports and their specific assigned number. The reports are listed in alphabetical order by author. The assigned number may be used to access reports in the online catalog.

Chronological files belonging to Robert H. Edwards were identified among documents originating from Dorothy V. White. These chronological files were separated and added to the Office Files of Robert H. Edwards, ACC2011/021.

Related Archival Collections

FA603 Ford Foundation records, United States International Affairs Program (USIAP), Education and Culture, Office Files of Peter W. Stanley, 1983-1992.

Peter Stanley was director of the Foundation's program in Education and Culture from 1984 to 1990. Education and Culture was a successor to Education and Public Policy and continued most of its responsibilities. This collection of office files includes papers from Edward J. Meade.

Science and Engineering, 1954-1970

Scope and Contents

These files, organized alphabetically by subject, were created by Carl Borgmann as head of the Science and Engineering program and as Advisor on Science and Technology. They include background on the development of the Foundation program in Science and Engineering and the eventual decision to phase it out. The Foundation's support for an engineering residency program and support for "Negro Schools" are extensively documented.

Title/Description	Instances	
Advisor on Science and Technology -- Correspondence, Memoranda Re: Site Visits, Proposed Grant Reviews, etc. (Colorado, Australia), 1966-1967	box 11	folder 1
Advisor on Science and Technology -- Memoranda Re: Undergraduate Computer Use, Atmospheric Science Grants, etc., 1962-1967	box 11	folder 2
Astronomy -- Report, Memorandum, Background on Possible Ford Foundation Support for Radio Telescopes, 1964	box 11	folder 3
Bundy, McGeorge -- Letter to Senator Harris Re: Science and Technology Policy, May 21, 1969	box 11	folder 4
Bundy, McGeorge -- Scientists' Advice -- Memoranda Re: Science Service, Foundation Mission, Nov 25, 1968 - Jul 29, 1969	box 11	folder 5
Consultant Reports Re: Science and Engineering Program, 1961-1963	box 11	folder 6
Course Development Grants -- List with Grant Descriptions, Jan 15, 1965	box 11	folder 7
Deddario Committee -- Borgman Statement before the House of Representatives Sub-Committee on Science, Research and Development of the Committee on Science and Astronautics, 1963-1964	box 11	folder 8
Development of Ford Foundation Program in Science and Engineering -- Report, Interviews, Summary Memoranda (1 of 2), Dec 15, 1954 - Apr 5, 1956	box 11	folder 9
Development of Ford Foundation Program in Science and Engineering -- Consultants Preliminary Report, Site Visits, Board of Trustees Outline Report, etc. (2 of 2), 1956-1959	box 11	folder 10
Education Technology Labs -- Memoranda Re: Deafness Work, Dec 31, 1969	box 12	folder 1
Gordon Research Conference -- Santa Barbara -- Correspondence and Background Info, Jan 28 - 31, 1968	box 12	folder 2
Graduate Student Loan Program -- Reports, Memoranda, Survey Information, 1960-1969	box 12	folder 3
Grants -- Descriptive Categories -- Financial Lists, Nov 17, 1961	box 12	folder 4
Negro Schools -- Fisk University -- Department Reports to the Ford Foundation, 1965	box 12	folder 5

Negro Schools -- Ford Foundation Internal Papers Re: Negro Education and FF Policy Development, 1963-1966	box 12	folder 6
Negro Schools -- Negro Education -- Memorandum by James W. Armsey, Dec 30, 1963	box 12	folder 7
Negro Schools -- North Carolina Teachers Association -- Correspondence Re: Visit, Background on Organization, 1966	box 12	folder 8

Peter E. de Janosi, 1966-1972

Scope and Contents

This series includes Dr. de Janosi's chronological files for 1972, which contain grant-related correspondence and records of site visits. A separate file contains memoranda related to Higher Education and Research Division staff meetings. There are also some of his subject files, organized alphabetically.

Title/Description	Instances	
Chronological File, Jan 1972	box 15	folder 11
Chronological File, Feb 1972	box 15	folder 12
Chronological File, Mar 1972	box 15	folder 13
Chronological File, Apr 1972	box 15	folder 14
Chronological File, May 1972	box 15	folder 15
Chronological File, Jun 1972	box 15	folder 16
Chronological File, Jul 1972	box 15	folder 17
Chronological File, Aug 1972	box 15	folder 18
Chronological File, Sep 1972	box 15	folder 19
Chronological File, Oct 1972	box 15	folder 20
Chronological File, Nov 1972	box 15	folder 21
Chronological File -- Grant Correspondence, Site Visits, etc., Dec 1972	box 15	folder 22
Conference on Foundation Programs in Europe -- Papers -- Agenda, LAC, A&P (1 of 3), Feb 24-25, 1971	box 16	folder 1
Conference on Foundation Programs in Europe -- Papers -- Discussion/Background (2 of 3), Feb 24-25, 1971	box 16	folder 2
Conference on Foundation Programs in Europe -- Papers -- Social Science Conference Papers (3 of 3), 1971-1972	box 16	folder 3
Financing of Traditionally Black Institutions -- Memoranda Re: Data, Site Visit, Fellowships, etc., 1971-1972	box 16	folder 4

Germany -- Economics and Economists -- Memoranda Re: University Site Visits, 1967-1968	box 16	folder 5
Germany -- University Development -- Memoranda Re: German Universities, Sep 17-Dec 6, 1971	box 16	folder 6
Greece -- General -- Report on Greek Higher Education, Correspondence and Memoranda Re: Education, 1969-1971	box 16	folder 7
Higher Education and Research (HER) Future Program Direction -- Memoranda, Jan 17-Feb 11, 1972	box 16	folder 8
Higher Education and Research (HER) Staff Meetings -- Memoranda Re: Meeting Minutes, 1972	box 16	folder 9
Higher Education and Research (HER) in Western Europe -- Ford Foundation Report on Shrinking Gap, 1970-1971	box 16	folder 10
Israel -- General -- Memoranda on Ford Foundation Programming, Trip Report, Aug-Sep 1971	box 16	folder 11
Israeli Foundations Trustees -- Memoranda Re: IFT, Grant Request, 1971-1972	box 16	folder 12

Corinne Kirchner, 1956-1969

Scope and Contents

Corinne Kirchner's files appear to have originated in the Office of the Secretary. Organized alphabetically, they contain research for fact sheets about the Ford Foundation, a faculty salary study, and a survey of fellowships and scholarships. There are also memoranda about general support grants and the grant analysis unit.

Title/Description	Instances	
About the Ford Foundation -- Reports and Fact Sheets Used for Publication Revision, 1960-1966	box 17	folder 1
Faculty Salaries -- University Finance Report, Press Release and Memoranda Re: Ford Foundation Support for Increased Salaries, 1956-1967	box 17	folder 2
Fellowships and Scholarships -- Ford Foundation Study/Survey Memoranda, 1957-1963	box 17	folder 3

General Support Grants -- Memoranda, Background Data and Analysis, 1963-1969	box 17	folder 4
Grant Analysis Unit -- Memoranda Re: Establishment and Improvement of Unit, 1956	box 17	folder 5
"In Praise of Candor" -- Remarks of McGeorge Bundy to the American Council on Education, Oct 13, 1967	box 17	folder 6

[^ Return to Table of Contents](#)

Edward J. Meade, 1958-1972

Scope and Contents

Organized alphabetically by subject, Dr. Meade's files focus on educational issues, including desegregation and support for disadvantaged minorities, studies on school drop-outs, and support for gifted youth and leadership programs.

Title/Description	Instances	
Assessment -- Ford Foundation Press Release Re: ETS, Dec 30, 1971	box 17	folder 7
Desegregation -- Sandwich Seminar Think Piece, Oct 19, 1970	box 17	folder 8
Disadvantaged -- Lists of Ford Foundation Grants for "American Negroes" and "American Indians", 1966-1971	box 17	folder 9
Drop-outs -- Ford Foundation Press Release Re: Studies on High School Dropouts, 1963-1964	box 17	folder 10
