Institute's "Third Section"**Scope and Contents note**

Boxes 43 and 44 contain papers about the so-called "Third Section" of the Institute, ca 1909-14. This was a proposal to establish special public health activities, including a Museum of Hygiene, at RIMR. The material in these two boxes was found in two packages in the Welch Hall vault, part of the files of the Business Manager. There is very little correspondence, and the file is incomplete regarding the narrative history of the proposal: i.e. the origins, response, and outcome are poorly documented in this file.

The major report of October 1914 was included in the "Report to the Scientific Directors," Record Group 439, Vol. 3.
