Biographical / Historical

Arnold Theiler (1867 March 26-1936 July 24) is commonly considered to be the father of veterinary science in South Africa.

Max Theiler (1899 January 30– 1972 August 11), Arnold's son, was a virologist and doctor awarded the 1951 Nobel Prize in Physiology or Medicine for his 1937 efforts to develop a yellow fever vaccine.

[^ Return to Table of Contents](#)

Scope and Contents

Types of records include: correspondence, obituaries, reprints, and photographs.

[^ Return to Table of Contents](#)

Arrangement

Series 1: Arnold Theiler. Subseries 1.1: Obituaries and Memorials. Subseries 1.2: Reprints.

Series 2: Max Theiler.

Series 3: Photographs. Subseries 3.1: Arnold Theiler photographs. Subseries 3.2: Max Theiler photographs.

Series 4: Ephemera.

Processing Information

Standard processing by Deryn Cro, RAC Summer Intern, 2011.

Conditions Governing Access note

Open for research with select materials restricted as noted. Brittle or damaged items are available at the discretion of RAC. Researchers interested in accessing digital media (floppy disks, CDs, DVDs, etc.) or audiovisual material (audio cassettes, VHS, etc.) in this collection must use an access surrogate. The original items may not be accessed because of preservation concerns. To request an access surrogate be made, or if you are unsure if there is an access surrogate, please contact an archivist.

Conditions Governing Use

Reproduction/duplication of archival items is routinely provided in accordance with "fair use." If the RAC does not hold copyright for an archival collection, or items within a collection, it is the user's responsibility to contact the copyright holder, or make a fair effort to do so, prior to publication.
