## Biographical / Historical

The Institute of International Education (IIE) was established in 1919 by Nobel Prize winners Nicholas Murray Butler, Elihu Root and Stephen Duggan, Sr. The founders sought greater understanding among nations, primarily through the establishment of international educational exchange between United States institutes of higher education and foreign actors interested in formulating and developing active and ongoing educational understanding. As the Institute grew, developed and matured, it has continued to focus in the area of scholars exchange, as well as education services, international development and leadership training.

IIE initially focused on facilitating student, faculty, and teacher exchanges with European countries. In the 1930s their scope expanded beyond Europe to include exchanges between the Soviet Union and Latin America. During this period the Institute also established the Emergency Committee to Aid Displaced

German Scholars which later expanded to include scholars fleeing fascist Spain and Italy as well. In the 1950s this program was utilized to support Hungarian refugees. In the early 2000s IIE Trustees together with other donors endowed the Scholar Rescue Fund (SRF).

Following WWII, the Institute helped establish the Association of International Educators (NAFSA) and the Council on International Education Exchange (CIEE) for which they serve to administer the CIEE faculty component and the graduate student component of the Fulbright program, which continues to today as the Institute's largest program.

## Scope and Contents

---

The Alumni Files and the Grantee Files comprise an estimated 3 million files which pertain to the students and professors involved in the IIE's exchange programs, and document the administration of their awards and travel.

The Historical Files pertain to the administration of the IIE's programs.

It is recommended that the Alumni Files and Grantee Files be used in concert with the Grantee Locator cards available in IIE, Record Group 2 (FA1290). The Grantor Locator cards are an alphabetical index of the Alumni/Grantees. The cards primarily provide program and date information as well as field of study. The cards can also be used as an entry point to the microfilm, with many of the cards providing roll number, side number and index number for the given grantee.

The microfilm of the Alumni Files and Historical files was created 1965-1970. As such the film shows physical wear, and at times can be extremely difficult to read. The overwhelming majority of the microfilm reels are double-sided, with content on both sides. To view the second side, fast forward to the end of the reel, proceed backwards and adjust the image and view settings accordingly.

[archive@rockarch.org](mailto:archive@rockarch.org)

URL: <http://www.rockarch.org>

### Processing Information

Minimal processing, 2017. The microfilm of the Alumni Files and Historical files was created 1965-1970. As such the film shows physical wear, and at times can be extremely difficult to read.

### Immediate Source of Acquisition

The microfilm was transferred to RAC by the Institute of International Education through several accessions in 2017. The original Alumni Files and Historical Files were destroyed at the time of microfilming (1965-1970) and are therefore not a part of the archival collection.

### Conditions Governing Access

Open for research. Brittle or damaged items are available at the discretion of RAC.

### Conditions Governing Use

The Institute of International Education archives were deposited at the RAC by IIE in June 2016. The Institute of International Education retains all rights, including but not limited to legal title, copyright, and intellectual property rights, in so far as it holds them.
