---

## Scope and Contents

---

Types of records include: grant and project log files.

[^ Return to Table of Contents](#)

---

## Arrangement note

---

Log Files (Grant & Project Proposals) are identified by a unique Log File # in the Ford Foundation Archives. Log File #s are formatted similar to the Foundation's grant numbers (PA numbers).

Each Log File # begins with the letter "L", followed by the two-digit year, and a sequential number within that year. For example: L60-123 = Log File, 1960, #123

However, during the 1950s Log Files were sometimes numbered with only one digit for the year, for example: L5-123 = Log File, 1955, #123

Each Log File was recorded in a series of Log Books, hence the name 'Log Files'.

The Ford Foundation Archive includes Log Files dating from 1951 to 1995. Log Files were microfilmed by year, and numerically by Log File# within each year. However there are many exceptions, and generally Log Files from 1977 to 1995 were not microfilmed in numerical order.

### Publication Statement

Rockefeller Archive Center

15 Dayton Avenue

Sleepy Hollow 10591

[archive@rockarch.org](mailto:archive@rockarch.org)

URL: <http://www.rockarch.org>

### Conditions Governing Access note

Open for research. Brittle or damaged items are available at the discretion of RAC.

### Immediate Source of Acquisition

Ford Foundation archive was deposited at RAC in 2011. Ford Foundation records, correspondence, reports, program files and officers papers were transferred to, and accessioned by, RAC beginning in 2011. Accessions continue as necessary.

### Conditions Governing Use

Completion of a use agreement is required prior to providing scholarly access. See RAC Head of Reference (or applicable designee) for details.

Ford Foundation holds title, copyright and literary rights in the collection, in so far as it holds them.

The Rockefeller Archive Center has authority to grant permission to cite and publish material from the collection for scholarly purposes. Permission to publish extensive excerpts, or material in its entirety, will be referred to the Ford Foundation.

## Processing Information

Initial preliminary description is provided in this guide for the Log Files spanning the years 1951-1976 to facilitate basic access to the holdings until such time that RAC can conduct further archival processing of the reels. This guide will be updated with additional description once the material is processed.

The description provided in this guide for the Log Files spanning the years 1977-1995, originated from the Ford Foundation's LINKS database.

The description of the 1977-1995 files includes: Log Number, Grantee Name, Grant Purpose, and the description for select logs also includes associated Program Name and Program Officer.

[^ Return to Table of Contents](#)

---

## Other Finding Aids note

---

Log Files (Grant & Project Proposals) are indexed by the Ford Foundations Central Index cards, 1950-1996 (FA736). The Central Index cards provide Log File numbers only, not microfilm reel numbers.

The Ford Foundation's LINKS database (available only to RAC staff), from which the description for the 1977-1995 Log Files presented here originates, provides indexing to 1,811 Log Files from 1977-2002, although this is not a complete inventory of the Log Files from that period. 133 of the 1,811 documented Log Files dating from the 1990s-2002 are not contained in the collection at RAC.

Grant & Project Proposals (Log Files) from 1951 to 1981 are listed by Log File number in the Ford Foundation's Log Books.

---

## Physical Characteristics and Technical Requirements

---

Materials requiring specialized equipment for access (film, audio, video, slides) may be restricted from scholarly research dependent on availability of the applicable equipment.

Brittle or damaged items, or materials otherwise in need of preservation care, may be restricted from scholarly research at the discretion of the RAC Head of Archival Services/RAC Head of Reference.
