## Biographical / Historical

The Institute of International Education (IIE) was established in 1919 by Nobel Prize winners Nicholas Murray Butler, Elihu Root and Stephen Duggan, Sr. The founders sought greater understanding among nations, primarily through the establishment of international educational exchange between United States institutes of higher education and foreign actors interested in formulating and developing active and ongoing educational understanding. As the Institute grew, developed and matured, it has continued to focus in the area of scholars exchange, as well as education services, international development and leadership training.

IIE initially focused on facilitating student, faculty, and teacher exchanges with European countries. In the 1930s their scope expanded beyond Europe to include exchanges between the Soviet Union and Latin America. During this period the Institute also established the Emergency Committee to Aid Displaced German Scholars which later expanded to include scholars fleeing fascist Spain and Italy as well. In the 1950s this program was utilized to support Hungarian refugees. In the early 2000s IIE Trustees together with other donors endowed the Scholar Rescue Fund (SRF).

Following WWII, the Institute helped establish the Association of International Educators (NAFSA) and the Council on International Education Exchange (CIEE) for which they serve to administer the CIEE faculty component and the graduate student component of the Fullbright program, which continues to today as the Institute's largest program.
