Conditions Governing Access

Open for research with select materials restricted as noted. Brittle or damaged items are available at the discretion of RAC. If accessing the records of the Population Council, I understand that I am given access to these records on condition that I will not identify by name, either in my research notes or in publication or recording, the names of individuals who received or apparently received medical diagnoses and/or treatments, whose case(s), may be documented or mentioned by personal name in the Population Council records. Researchers interested in accessing digital media (floppy disks, CDs, DVDs, etc.) or audiovisual material (audio cassettes, VHS, etc.) in this collection must use an access surrogate. The original items may not be accessed because of preservation concerns. To request an access surrogate be made, or if you are unsure if there is an access surrogate, please contact an archivist.
