Alexis Carrel, 1873-1944, physician worked in Experimental Surgery at The Rockefeller Institute for Medical Research from 1906 until his retirement in 1939. The major portion of his papers were deposited by his widow, Madame Carrel, at Georgetown University Medical School.

Biography: Edwards, W. Sterling. Alexis Carrel, visionary surgeon by William Sterling Edwards and Peter D. Edwards, Springfield, Ill. Charles Thomas 1974.

[^ Return to Table of Contents](#)

Scope and Contents note

The collection consists of photographs of Dr. Carrel and his laboratory; laboratory alterations and war activities; bibliography and bound volumes of collected reprints; newspaper clippings and box 2 which is primarily administrative correspondence between Alexis Carrel, Simon Flexner and the Business Manager. After 1934 some correspondence is with Herbert Gasser.

Includes material relating to the Rockefeller Institute hospital established in Compiègne, France, during World War I, courses for the treatment of wounds during the war at the Rockefeller Institute's War Demonstration Hospital, and the perfusion pump designed with Charles A. Lindbergh for work in tissue culture.
