Biographical / Historical

The John A. Hartford Foundation (JAHF) was established in 1929 by brothers John and George Hartford, sons of the founder of the Great Atlantic and Pacific Tea Company (A and P). The foundation is a private, nonpartisan philanthropy dedicated to improving the care of older adults. For its first several decades, the foundation broadly supported clinical medical research. By 1982, it began to focus solely on geriatric healthcare. In 2015, JAHF paid out \$20.2 million on a total of 80 active grants and committed \$25.3 million to 24 new grants projects, all focused on the care of older adults.

[^ Return to Table of Contents](#)

Scope and Contents

Geriatric Institutional Assessment Profile (GIAP), an instrument designed to help hospitals analyze the needs of their elderly patients and determine gaps in geriatric care provision. This series contains

the original survey sheets collected from the hospitals and medical centers that worked with the John A. Hartford Foundation and the NICHE (Nurses Improving Care for Healthsystem Elders) program. Included with the original data surveys are some of the final analyses and presentations the John A. Hartford Foundation used in their program.
