### Processing Information

Since the contents of the Film collection have inherently been separated from other archival holdings, the description of any individual item, or set of items, may also currently appear, in some form, in the finding aid for the originating collection.

Future processing, description, and presentation of Films will seek to address this issue as much as feasible.

### Immediate Source of Acquisition

In most cases, the specific details of the provenance are simply unknown.

### Conditions Governing Access

All inquiries to view films require advanced notice of at least 48 business hours, and may necessitate notice of up to one week. Individual items, including those that are not available in modern formats, may require creation of an access surrogate. Applicable charges will apply.

### Rockefeller family films, General

#### Scope and Contents

The Rockefeller family films represent a mix of private family footage, and published recordings from a multitude of sources. In the 1970s and 1980s, a reorganization effort duplicated and merged many of the original Rockefeller family films, so there is frequent overlap and repetition of some scenes, and many films contain a mix of private and public footage.

See the Archival Services staff for more information about these films or guidance on finding a scene.

The Rockefeller family (General) films contains moving images of multiple family members.

Thereafter, are individual series focused on materials pertaining to, or otherwise related to, the activities of each prominent member of the Rockefeller family "Brothers Generation". Family members may be referred to by their full name, nickname, or abbreviation (such as NAR).
