Biographical / Historical

Carl TenBroeck, 1885-1966, physician and researcher in animal pathology, Director of the Princeton laboratories of The Rockefeller Institute for Medical Research 1930-1950, worked with hog cholera virus and bacilli of the paratyphoid group, with the tetanus bacillus and on the problem of the transmission of encephalitis. He was an important influence in animal pathology in changing the emphasis from comparative pathology to virology.

Married to Janet Rinaker April 28, 1917

Children: Carlon (deceased 1928); Jane, Nancy

In 1966 daughter Jane was married (Mrs. Frank Gay) and living in Wilmington, Del.

[^ Return to Table of Contents](#)

Photographs.

Bibliography.

Correspondence, 1913-1920	box 1	folder 2
Scope and Contents note Primarily administrative correspondence with Henry James, business manager, but also included early letters on joining the Rockefeller Institute for Medical Research. Some letters while on leave October 1918-May 1919 with the U.S. Army as a Lieutenant. Also includes his resignation in 1920. Many letters are handwritten. The administrative correspondence deals with the establishment of procedures for the new department in Princeton.		
Correspondence from Peking Union Medical College and with his acceptance of offer of appointment as Member of RIMR, 1924-1928	box 1	folder 3
Scope and Contents note Letters deal with arrangements for his return, and to bring some experimental mice to the United States. June 1927-June 1928 was spent abroad (Europe) and a letter from Abraham Flexner asks him to make some studies for him of the conditions in Europe for the study of animal pathology. A handwritten note from Edric Smith Nov. 12, 1928 deals with the death of TenBroeck's son.		
Administrative correspondence		
1928 December-1931	box 1	folder 4
Scope and Contents note Deals with appointments, salaries, equipment purchase, personnel and travel to conferences. 16 June 1929 is appointed Acting Director of the Dept. and September 30 as Director for 4 years, making a 5-year appointment.		
1932-1934	box 1	folder 5
Scope and Contents note Some handwritten letters and also handwritten copies of Flexner letters from which typed copies are made.		
1935-1943	box 1	folder 6
Scope and Contents note In 1934 Simon Flexner retired and Herbert Gasser became Director of the RIMR laboratories.
