"E" files and Miscellaneous papers, 1981-1982

Arrangement note

The papers were found in considerable disorder, and the order below was given to aid retrieval of particular files/items. The group appears to be essentially an "E" correspondence file, but is not simply an omission from the correspondence already processed: there are an unusual number of family letters, as well as a number of items pre-1920, which distinguish this from the other correspondence.

Immediate Source of Acquisition note:

Immediate Source of Acquisition note

The following files, continued in Paige box 28, are a special group of papers that were received in April 1982 from Dr. John Crow (New York Hospital); Dr. and Mrs. Crow bought the former Cohn residence in New Milford, Ct., in the fall of 1981. The papers were discovered in the attic of the guest house; for further background see the Archivist's administrative file on the Cohn Papers.

Scientific Reports, 1921 1925 1926 1930 1931 1935 1985

Scope and Contents note

This file was found in good order, though reports for some years/periods are missing. The series comprises primarily drafts by Cohn of reports to The Rockefeller Institute Board of Scientific Directors (April report) and to the Board of Trustees (October report) (other months, from the earliest years, are to the Bd. Sci. Dirs.). Also extant are a number of shorter reports prepared by Cohn's associates, which were incorporated by Cohn into the final version; some show Cohn's editorial revisions. In addition to these manuscript drafts, three soft-paper notebooks were found, containing the final reports for the years, respectively, April 1921-October 1925, April 1926-April 1930, and April 1931-March 1935. These reports have been removed from the notebooks and are filed at the beginning, of the period covered. Carolyn Kopp, 1 August 1985.
