Biographical/Historical note

Paul Ehrlich, 1854-1915, physician and scientist, Berlin and Frankfurt, Germany. Founder of hematology, pioneer and major contributor to the fields of histochemistry and immunology. Famous for his development of chemotherapy (arsphenamine - 606) for syphilis. Nobel Laureate in physiology or medicine in 1908, jointly with Elie Metchnikoff for their studies in immunity.

Biographical note	
1854	Born March 14 in Strehlen, Silesia
1872	Graduated from St. Maria Magdalena Gymnasium in Breslau

1878	M.D. from the University of Leipzig, after studies at the Universities of Breslau, Strassburg and Freiburg
1878-1888	Assistant physician, later senior physician at the Charité Hospital in Berlin, director Professor von Frerichs
1888/1889	After contracting tuberculosis cured in Italy and Egypt
1889	Established a small private research laboratory in Berlin
1890	Appointment in the Robert Koch Institute for Infectious Diseases in Berlin
1896	Appointed director of the new State Institute for Serum Research and Serum Control in Steglitz, a suburb of Berlin
1898	This institute moved to Frankfurt and was expanded and renamed: The Institute for Experimental Therapy
1906	The Georg-Speyer wing for chemotherapeutical research was added with the private financial help of Mrs. Franzisca Speyer
1908	Nobel Prize in physiology and medicine
1911	Received the state rank of "Wirklicher Geheimer Rath" with the title of Excellency
1914	Named "Ordentlicher Professor" at the newly founded University of Frankfurt
1915	August 20, died in Bad Homburg and is buried in the Jewish Cemetery in Frankfurt

Honorary Degrees

1904	University of Chicago, LL.D.
1907	University of Oxford, D.C.L.
1911	University of Athens, Dr. phil. h.c.
1911	University of Breslau, Dr. med. h.c.

Awards

1887	Senckenberg Naturforschende Gesellschaft, Frankfurt a.M. Tiedemann Prize
1903	The Prussian Great-Golden Medal of Science
1906	Prize of Honor at the XVth International Congress of Medicine at Lisbon
1908	Nobel Prize
1911	Liebig Medal, Society of German Chemists
1914	Cameron Prize of Edinburgh

Orders: Bavaria: Member of the Bavarian Maximilian Order, Denmark: Commander Cross of the Dannebrog Order, Second Class, Japan: Order of the Rising Sun, Third Degree, Norway: Commander Cross of the Royal Norwegian St. Olaf Order, Second Degree, Palatinate: Cavalier Cross of the order of Berthold I of Zähringen, Prussia: Order of the Crown, Second Degree; Order of the Red Eagle, Second Degree, Rumania: Cross for Sanitary Merits, First Degree, Russia: Order of St. Anne, First Degree, with Diamonds, Star and Cross, Serbia: Great Cross of the Order of St. Sava, Spain: Great Cross of the Order of Alfonso XII, with Star and Cross, Venezuela: Order of the Bust of Bolivar, Second Degree, with Precious Stones

Membership in Scientific Societies (83)

1887	Senckenbergische Naturforschende Gesellschaft, Frankfurt a.M., Corresponding Member
1899	Senckenbergische Naturforschende Gesellschaft, Frankfurt a.M., Ordinary Member
1900	Balneologische Gesellschaft, Berlin, Honorary Member
1900	Royal Danish Society of Sciences, Copenhagen, Foreign Member
1902	International Society for the Fight against Tuberculosis, Berlin, Honorary Member
1902	German Chemical Society, Berlin, Member of the Committee
1903	Silesian Society for Home Culture, Corresponding Member
1903	Royal Academy of Medicine, Turin, Corresponding Member
1904	Royal Academy of Sciences, Bologna, Corresponding Member
1904	Society for Internal Medicine, Vienna, Honorary Member
1904	Imperial and Royal Society of Physicians, Vienna, Honorary Member
1904	The New York Academy of Medicine, Honorary Member
1904	Royal Society of Sciences, Göttingen, Foreign Member of the mathematical and physical class
1904	Royal Society of Medicine and Natural Science, Brussels, Corresponding Member

1904	Academy of Sciences, Washington, Foreign Member
1904	Societas therapeutical Mosquana, Moscow, Honorary Member

1914	Norwegian Society of Natural Sciences, Christiania, Foreign Member
1914	Society of Jewish Physicians of the Ottoman Empire, Constantinople, Honorary Member
1915	Pharmaceutical Society, Berlin, Honorary Member

The above information was copied from the book Paul Ehrlich, by Martha Marquardt. Henry Schuman, 951, pp 252-255.

Family Note	
1883 August 14	Married Hedwig Pinkus

1884 October 19	Born daughter Stefanie (m. Ernst Schwerin)
1886 January 23	Born daughter Marianne (m. Edmund Landau)

Grandchildren : Hans-Wolfgang Schwerin; Gunther Schwerin; Herbert Landau; Dolly Landau; SuzanneLandau; Matthias Landau

Family Note	
1883 August 14	Married Hedwig Pinkus
1884 October 19	Born daughter Stefanie (m. Ernst Schwerin)
1886 January 23	Born daughter Marianne (m. Edmund Landau)

[^ Return to Table of Contents](#)

Scope and Contents note

The Ehrlich papers, a special collection of the Rockefeller University, consists of copy books and their typescripts, laboratory notes, correspondence, photographs, books, diplomas, obituary material and memorabilia. There is very little incoming correspondence in this collection, although a synopsis of about 450 letters is available. This synopsis may have been prepared by Martha Marquardt, Paul Ehrlich's secretary for many years. Many original letters by Paul Ehrlich, both handwritten and typed, with his signature are part of this collection. These letters seem to have been collected by the recipients and returned to Mrs. Ehrlich after her husband's death. Mrs. Ehrlich may also have requested reminiscences about her husband by his friends and colleagues which she collected, hoping to yield suitable material for a biography at a later time.

The collection was given by the grandsons of Paul Ehrlich, Hans and Günther Schwerin, with the aim to establish a central Paul Ehrlich archive, since much of the material was dispersed during the war years. Mr. Günther Schwerin located the copy books right after the war in Germany and sent them and other material to the Wellcome Institute for the History of Medicine in London for safekeeping. Miss Marquardt, after having spent the war years in France, went to London and transcribed the copy books, since Ehrlich's handwriting is very hard to read and she was one of the few people who could do so. At that time Dr. F. Himmelweit, London, prepared the Collected Papers of Paul Ehrlich in four volumes. Pergamon Press published three volumes in 1960 (the fourth was never published) with an introduction by Sir Henry Dale, a friend and colleague of Paul Ehrlich.

Custodial History note

The present collection is made up of material from two sources:

- 1) the Wellcome Institute for the History of Medicine
- 2) a storage house in New York, where Mrs. Ehrlich's belongings were kept after her death in 1948.

It has now been fully integrated and no further distinction from which source it came has been preserved.

Immediate Source of Acquisition note

The papers of Paul Ehrlich were deposited with The Rockefeller University Archives on November 1978 by Mr. Günther Schwerin.

Processing Information note

Initial processing by Beate I. Hirsch, February 1979. Additional processing 2018.

Conditions Governing Access note

Open for research with select materials restricted as noted. Brittle or damaged items are available at the discretion of RAC.

3 typescript pages from Ehrlich, each with a separate dispute of what Uhlenhuth may have said
7 typescript pages by Ehrlich rebuffing the Uhlenhuth accusation that he, Uhlenhuth, deserves the right to be called the first to discover that atoxyl can cure syphilis; some pages have corrections but not in Ehrlich's handwriting
Ehrlich: Schlusswort
4 newspaper clippings dealing with Salvarsan, Ehrlich and Uhlenhuth, all, 1910 November
Die Chemotherapie der Spiroloosen, 1911 March 20

Scope and Contents note

Reprint of article sent to Ehrlich for correction.

Zu den vorstehenden Bemerkungen von Paul Uhlenhuth, 1911 April 27
Scope and Contents note
Reprint of article sent to Ehrlich for correction.
Reprint of an article written by Uhlenhuth: Bemerkungen zu der Arbeit von Paul Ehrlich - Die Chemotherapie der Spiroloosen.

[^ Return to Table of Contents](#)

Copy Books and Transcripts

Scope and Contents note

Copy-books: there are 47 bound volumes of copies of correspondence, laboratory notes and instructions, as well as laboratory protocols. Each book has about 500 pages; many of these are copies of handwritten notes and letters by Paul Ehrlich, the other pages are copies of typewritten letters with Ehrlich's signature. Typescript: Martha Marquardt transcribed the handwritten pages and made four copies (in a few cases six copies). Three copies are in

this collection, the fourth remained at the Wellcome Institute, London. Miss Marquardt divided the labeled copy-books in Series I-VI, since they overlap in time and contain copies of varying material.

Series I: labeled: Copir Buch, are copies of correspondence

Series II: Zettel Buch, are copies of "Blöcke" (i.e. laboratory instruction written on cardboard)

Series III: Carcinom, are copies of notes about cancer research

Series IV: Direktor Ehrlich, are copies of laboratory protocol notes to co-workers and some correspondence

Series V: Direktor Ehrlich, are copies of correspondence and some "Blöcke"

Series VI: Speyer-Haus, are copies of "Blöcke", laboratory instructions and protocol notes

Each box contains the copy-book and three copies of the typescripts. Where there are more copies, they are stored in boxes labeled with an "A".

Arrangement note

Arranged in chronological order and by Series #.

Engagement time letters between Paul Ehrlich and Hedwig Pinkus

Scope and Contents note

Covering the period of February 1883 to August 1883. Paul and Hedwig married on Tuesday, August 14, 1883.

There are 106 handwritten letters by Paul Ehrlich to Hedwig Pinkus and 103 by Hedwig to Paul. Two so-called "Brautbriefe" written by Paul on February 25 and 27, 1883 are of special interest. The February 25 letter was sent by Ehrlich's daughters in 1955 to Sir Henry Dale as a gift and memento. This letter was later sold and is therefore not part of this collection in the original; only a photo copy is available. There are 3 typescript copies of these 2 letters; none of the others have been transcribed.

The letters are in chronological order but not integrated; Box No. 48 contains Hedwig's letters and Box No. 49 contains Paul's. There are some related letters by Hedwig's parents and wedding invitations in Box No. 48. Many of these letters have the original envelopes and stamps.

Title/Description	Instances
