Principles of Genetics Lecture Series	11

Summary Information

Repository:	Rockefeller Archive Center
Creator:	Rockefeller University.
Title:	Rockefeller University records, Films
ID:	FA753
Date [inclusive]:	1958-1972
Physical Description:	1 film reels Actual extent unknown.
Language of the Material:	English

Preferred Citation

Information regarding the Rockefeller Archive Center's preferred elements and forms of citation can be found at <http://www.rockarch.org/research/citations.php>

Controlled Access Headings

- Rockefeller University.

Collection Inventory

Rockefeller University Films, circa 1958-1972

Arrangement

Alphabetical.

Scope and Contents

Contains films originating from Rockefeller University records, as well as various laboratories and the papers of select faculty.

Title/Description

Instances

1972 Nobel Prize in Chemistry

reel AV 705

Conditions Governing Access note:

Conditions Governing Access note

All inquiries to view films require advanced notice of at least 24 hours, and may necessitate notice of up to one week. Individual items, including those not available in modern formats, may be restricted from scholarly access at the discretion of RAC.

Scope and Contents note

Film of a meeting between Christian B. Anfinsen (National Institute of Health), Stanford Moore (Rockefeller University), and William H. Stein (Rockefeller University).

Principles of Genetics Lecture Series, 1959-1960

Arrangement

Titles arranged alphabetically.

Scope and Contents

A series of 48 films on Principles of Genetics, organized by Dr. Irwin H. Herskowitz, Saint Louis University. Presented by McGraw-Hill Text-Films. Supported by a grant from The Fund for the Advancement of Education to Educational Station KETC-TV and Saint Louis University. Produced by University Films. Distributed by McGraw-Hill Book Company Text-Film Department.
