Biographical/Historical note

Leslie Tillotson Webster, 1894-1943, physician and researcher worked in epidemiology and bacteriology at The Rockefeller Institute for Medical Research from 1920 until his death in 1943. He was a pioneer in the investigation of the importance of natural resistance to disease and the experimental facts on the basis of which the spread of epidemics can be explained. Author of book "Rabies" published in 1942.

Biographical note	
1894	Born July 23 New York, N.Y.
1915	A.B. Amherst College, Amherst, Mass.

1919	M.D. Johns Hopkins Medical School, Baltimore, Md.
1919-1920	Assistant Resident Pathologist, Johns Hopkins Hospital

Collection Inventory

Title/Description	Instances	
Biographical material	box 1	folder 1

Scope and Contents note

Bibliography; photographs; some newspaper clippings;
Memorial Minute.

Reprint: Archives of Pathology 36 (1943) 536-537, 1943	box 1	folder 1
Obituary note written by Peter K. Olitsky	box 1	folder 1
Diary, 1929-1943 May	box 1	folder 2

Scope and Contents note

Reproduced typed copy.

Includes thoughts on family life as well as on progress of
laboratory activities and world affairs.

Administrative correspondence, 1920-1943	box 1	folder 3
--	-------	----------

Scope and Contents note

Primarily with Simon Flexner and Business Manager and
deals with budgetary matters, laboratory workers and
assistants; laboratory equipment, supplies, animals and
projected research plans.

Includes original application for appointment and
recommendation by Dr. W.G. MacCallum of Johns Hopkins
University, (holograph).

Items of special interest.

To Simon Flexner from L.T. Webster stating he will not accept
offer in pediatrics made by Dr. Park of Johns Hopkins Hospital,
1927 March 31

Poliomyelitis epidemic in Los Angeles, 1934

Experimental epidemiology, 1926-1940 1946	box 1	folder 4
---	-------	----------

Scope and Contents note

Headed: "Older notes 1926-1940 (about 40 pages)" Photocopy
assembled from handwritten notes; tables and reprints.
[Maybe draft of 1946 posthumous publication].

Experimental epidemiology film	box 1
--------------------------------	-------

Scope and Contents note

Study of epidemic patterns in a rabbit colony.

Immediate Source of Acquisition:

Immediate Source of Acquisition

Film left to the Rockefeller University by Mrs. Webster.

Physical Characteristics and Technical Requirements

Materials requiring specialized equipment for access (film, audio, video, slides) may be closed to research dependent on availability of the applicable equipment
