Summary Information

Repository:	Rockefeller Archive Center
Creator - aut:	Kunkel, Louis Otto
Creator:	Rockefeller University
Creator:	Rockefeller Institute for Medical Research
Title:	Louis O. Kunkel papers, Rockefeller University Faculty
ID:	FA172
Date [inclusive]:	1930-1959
Physical Description:	14.96 Cubic Feet
General Physical Description note:	23 boxes; 11 wooden cases; 3 volumes
Language of the Material:	English

Preferred Citation

Biographical/Historical note

Louis Otto Kunkel, 1884-1960, at the RU (formerly RIMR) from 1931-1960. As Pathologist at the Bureau of Plant Industry, U.S. Department of Agriculture he conducted investigative work on virus diseases of the potato. As Associate Pathologist at the Hawaiian Sugar Planters' Association his studies were on viral diseases of sugar cane and their insect vectors. As Pathologist at the Boyce-Thompson Institute for Plant Research he developed a diversified program of studies on viral diseases of plants and became interested in the "yellows" type of plant diseases and the insect vectors involved in such disease. This general area of research constituted his main interest for the rest of his life. In 1931 Dr. Kunkel became head of RIMR Department of Plant Pathology at Princeton. In 1949 when Princeton laboratories were merged with New York City laboratories, he came to New York to continue his work. In 1956 he received the Certificate of Merit award at the Golden Jubilee meeting of the Botanical Society

of America and in 1959 the Distinguished Service award of the New York Botanical Garden. His was a lifetime of outstanding research and administration in plant pathology, mainly in the field of virology.

Biographical note	
1884	Born May 7 Audrain County near Mexico, Mo.
1909	B.S. in Education, State University of Missouri, Columbia, Mo.
1910	A.B. State University of Missouri, Columbia, Mo.
1911	A.M. State University of Missouri, Columbia, Mo. 1909-1911 Assistant in botany, State University of Missouri, Columbia, Mo.
1911-1912	Graduate student, Washington University, St. Louis, Mo.
1911-1912	Research fellow in the Henry Shaw School of Botany, Washington University, St. Louis, Mo.
1912-1914	Graduate student, Columbia University, New York, N.Y.
1912-1913	Assistant in botany, Columbia University
1913-1914	Research assistant in botany, Columbia University
1914	Ph. D. Columbia University, N.Y.
1915-1916	Cutting traveling fellow from Columbia University
1914-1920	Pathologist, Bureau of Plant Industry, U.S. Dept. of Agriculture, Washington, D.C.
1920-1923	Associate pathologist, Hawaiian Sugar Planters' Association, Hawaii
1923-1931	Pathologist, Boyce Thompson Institute for Plant Research, Yonkers, N.Y.

1932	Elected member, National Academy of Sciences
1931-1949	Member and Head of Plant Pathology, RIMR Princeton, N.J.
1949-1955	Professor emeritus RU: Princeton and New York City laboratories merged
1955	Retired as administrator and devoted all of his time to research
1960	Died March 20 Newtown, Pa.

Awards

1956	Received the Certificate of Merit award at the Golden Jubilee meeting of the Botanical Society of America
1959	Distinguished Service award of The New York Botanical Garden

Member of: National Academy of Sciences, American Philosophical Society, Botanical Society of America, American Psychopathological Society, Phi Beta Kappa, Sigma Xi, American Society of Naturalists, American Institute of the City of New York, Society of American Bacteriologists: (1942-1943 President of Theobald Smith Society, N.J. branch of; also on program committee), National Geographic Society (membership certificate with biographical material in Box no. 1), Torrey Botanical Club

Served as Member of the Board of National Research Fellowships in the Biological Sciences for the National Research Council, Member of the American Advisory Council for Yenching University at Peiping, China, Member of the Advisory Council of the Department of Biology, Princeton University, Member of the Committee to visit the Division of Biology for the Board of Overseers of Harvard College (1934-1941), Member of the Board of Managers (1952-1961) and member of the Scientific Committee (1953-1957) for the New York Botanical Garden, Member of Council of Awards of The American Institute of the City of New York, Associate editor of Phytopathology (1931-1934)

Family History. Parents: Mr. Henry Kunkel and Mrs. Katie Price (Spencer) Kunkel of Mexico, Mo., 1915 Sept. 4 married Johanna Caroline Wortmann, Children: (4 sons): Henry George, Otto Wortmann, Walter Ralph, Paul Spencer

Secondary sources for Louis O. Kunkel:

G.C. Ainsworth, Introduction to the history of plant pathology (Cambridge: Cambridge University Press, 1981).

Includes biographical references, bibliography (arranged chronologically) and "Some landmarks in the history of plant pathology."

There are, however, two mistakes regarding Kunkel's appointment: 1) p. 95. Kunkel was not the first Director of the Department of Animal and Plant Pathology. Carl Ten Broeck was director (not the first; Theobald Smith, 1916), appointed in 1930. Kunkel was appointed director of the Division of Plant Pathology, 1931. 2) p. 139. In 1935 Kunkel was no longer at the Boyce Thompson Institute, but at RIMR.

box 3

folder 3

Scope and Contents note

Correspondence about visits to Princeton; personnel; scientific staff and appointments; laboratory equipment; annual reports; journals.

Includes special interest items: Lecture: 1932 Mar 21 RIMR Princeton staff seminar; 1932 Oct. 24 brief biographical and work outline of Holmes, Osborn, Stanley, White, Price, Spencer, Thornberry, Jensen,

Plantenga; recommendations for T. Laskaris; A.F. Blakeslee; I.P. Norval; report and praise of Braun investigative work 1938-1941; Ten Broeck holographs.

Includes Correspondence with M. Swift/ Ten Broeck concerning Pinus Bungalana and the Gundstone Tamopan.

Purchasing, 1932-1938

box 3

folder 4

Scope and Contents

Correspondence primarily with C.P. Spies and some with E.H. Turner about purchasing laboratory and greenhouse equipment and supplies.

Publications, 1933-1943

box 3

folder 5

Scope and Contents

Correspondence with E.C. Campbell and F.M. Stewart concerning Dr. Kunkel and staff publications.

[^ Return to Table of Contents](#)

Correspondence, 1930-1959

Scope and Contents note

Early correspondence is addressed to Dr. Kunkel at Boyce Thompson. Correspondence deals largely with an exchange of scientific information about plant virus diseases, exchange of samples of diseased and healthy plants for experimental purposes and identification, and an exchange of samples of cultures and seeds. Further correspondence is about attendance to scientific meetings and frequent presentation of papers. Dr. Kunkel attends many meetings of the American Phytopathological Society and American Association for the Advancement of Science (AAAS).

Includes Correspondence about manuscripts for publication and many requests for reprints of Kunkel published papers; many job inquiries. Dr. Kunkel displays a keen sense of humor with friends.

Includes some administrative Correspondence relating to staff appointments (filed under name of appointee).

Arrangement note

Arranged in alphabetical order.

Laboratory notes, 1928-1956

box 17

Scope and Contents

Photographic prints of various virus diseased plants with experimental data (loose leaf covers removed - some years lacking) ; includes literature searches of virus disease literature to and including 1929.

Title/Description	Instances	
Virus disease literature to and including 1929, 1929		
Scope and Contents note		
Includes: subject index pp i-ii; author index pp iii-ixxviii; literature citations pp 1-276. Stapled items found in duplicate copy (inserted where found) ; other items found in original copy and kept in order found (papers and references).		
pp 1-85	box 17	folder 1
pp 86-178	box 17	folder 2
pp 179-276	box 17	folder 3

Photographic Prints, 1928-1956

Scope and Contents note

Notebooks containing photographic prints with experimental work descriptions of virus diseases in plants; some tables.

Includes table of contents; index to prints listing page number; lantern slide number (lantern slides 1928-1945 only) and negative number (negatives 1933-1956 only) ; some negatives found. (Description from original loose leaf covers). There are lapses in dates of notebooks (some years lacking).

Aster yellows etc., 1928-1937		
Includes 3 pages of table of contents; 2 pages lantern slide and negative index; pp 1-69 of photographs with experiments	box 17	folder 4
pp 70-124 photographs with experiments	box 17	folder 5
Peach yellows, rosette, potato malnutrition, tomato spotted wilt etc., 1928-1934		
Includes 2 pages of table of contents; 2 pages lantern slide and negative index; pp 1-69 of photographs with experiments	box 17	folder 6
pp 70-124 photographs with experiments	box 17	folder 7
Peach: Yellows, rosette, 1933-1936	box 18	folder 1

Scope and Contents note

Includes 1 page table of contents; 1 page negative and lantern slide index; pp 1-38 photographs with experiments.

Photographs of various diseased plants: Alfalfa, aster etc..., 1942-1945

Scope and Contents

(Table of contents alphabetically lists plants and diseases) Sept. 1942-April 1945 [Editor's note: Page numbers referred to are those typed in black ink, not handwritten red ink ones]

Title/Description	Instances	
Includes title page; 1 page negative and lantern slide index; 7 pages table of contents; pp 1-50 photographs with experiments	box 18	folder 2
pp 51-105 photographs with experiments	box 18	folder 3

Photographs of various diseased plants: Alfalfa witches' broom, apple, aster etc..., 1945-1947

Scope and Contents

(table of contents alphabetically lists plants and diseases May 1945-Nov 1947 [Editor's note: Page numbers referred to are those typed in black ink, not handwritten red ink ones])

Title/Description	Instances	
Includes title page; 1 page negative and lantern slide index; 5 pages table of contents; pp 1-49 photographs with experiments	box 18	folder 4

pp 50-108 photographs with experiments

box 18

folder 5

Photographs of various diseased plants: Abutilon, alfalfa, asclepias etc... , 1948-1949

Scope and Contents

(table of contents alphabetically lists plants and diseases) Jan. 1948- Nov. 1949 [Editor's note: page numbers referred to are those typed in black ink, not handwritten red ink ones]

Title/Description	Instances	
Includes: Title page; 1 page negative and lantern slide index; 7 pages of table of contents; pp 1-59 photographs with experiments	box 19	folder 1
pp 60-120 photographs with experiments	box 19	folder 2
Photographs of various diseased plants: Aster, aster yellows, California aster yellows etc., 1954-1956	box 19	folder 3

Scope and Contents note

(table of contents alphabetically lists plants and diseases) 1954 Oct-1956 Sept [Editor's note: Page numbers referred to are those typed in black, ink;, not handwritten red ink ones].

Includes: Title page; 1 page photograph number index; 8 pages table of contents; pp 1-45 photographs with experiments.
