Biographical / Historical

James G. Hirsch (1922-1987) was associated with the RU from 1950-1987, when he left to become president of the Josiah Macy, Jr. Foundation. Professor and senior physician, Hirsch worked in tuberculosis with René Dubos and went on to discover phagocytin in white blood cells.

On December 7, 1987, a memorial was held in Hirsch's honor in Caspary Hall at the RU. Speakers included Clarence M. Connelly, Joshua Lederberg, Zanzvil A. Cohn, George B. Mackaness, John T. Bruer, and Maxine F. Singer. There was also a scientific tribute held later that day. Speakers included Sally H. Zigmond, Seymour J. Klebanoff, Thomas P. Stossel, and Ira S. Mellman.

[^ Return to Table of Contents](#)

Scope and Contents

Includes primarily typed speeches given at memorial; also includes correspondence, and a photocopy of the program.
